- UI/UX Design

PROJECTS

AlphaArray – Educational Web Application (PHP, MySQL, HTML, CSS, JavaScript, Bootstrap)   **2024**

AlphaArray is a PHP-based educational web application enabling learners, instructors, and institutions to connect in an interactive, scalable environment. Built features like user authentication, course management, and responsive design for cross-device access. Utilized MySQL for secure data handling and modern web technologies to optimize usability, accessibility, and system scalability.

Jobify – Laravel-based Job Portal (Laravel, PHP, MySQL, Bootstrap, JavaScript)   **2025**

Jobify is a Laravel-based job portal designed to connect job seekers with employers in a secure, user-friendly environment. It includes features like user registration, job postings, application tracking, and role-based access for admins, recruiters, and candidates. Built with MySQL and responsive design to ensure smooth, accessible use across all devices.

SafePassage – Android Security App (Kotlin, Android Studio, SQLite, Material Design)   **2025 – Present**

SafePassage is an Android app that helps users securely store and manage their credentials and documents. It includes PIN-based access, a password manager, credit card storage, a document vault, a password generator, and a password strength monitor. Designed with an easy-to-use interface and strong security to ensure a private, seamless experience.

DipThinq – AI Conversation Platform (React, JavaScript, Tailwind CSS, OpenRouter API)   **2025**

A modern AI chat platform built with React + Tailwind. Supports multiple AI agents (Creative, Code Assistant, Deep Thinker) and integrates multiple AI models via OpenRouter. Includes dark/light mode and fully responsive UI.

AI Notes App – Smart Notes with AI (React, JavaScript, CSS3, OpenRouter API)   **2025**

A minimal notes application with AI-powered summaries, rewrites, and improvements. Uses local storage for saving, responsive UI, and clean design to practice real-world AI features.

Personal Portfolio Website (React, JavaScript, CSS3)   **2025**

A personal portfolio website showcasing my development skills, featured projects, and learning journey. Designed with a clean UI, smooth animations, and mobile-friendly layout. Focused on presenting my work in a simple and professional way.
